Flush-Mount Stereo Ceiling Speakers
With DANTE / AES67 / POE+
This instructions are intended for installers with knowledge in network technology. Please read the instructions carefully prior to operation and keep them for later reference.

**Applications**

This speaker is specially designed for PA systems based on Dante audio networks. It is suitable for installation into a lightweight ceiling. The MNS-6AXXCS-1P is ideal for hotels, conference rooms, shopping center, education, hospitals, retail stores, performing art centers, restaurants, airports, houses of worship, and board rooms.

The speaker features a Class-D amplifier. With a maximum digital input signal, the amplifier will provide 30W power.

MONISMS MNS-6AXXCS-1P is a Dante™ audio network addressable and self-amplified ceiling speaker system.

The speaker is Power supply via POE+ (Power over Ethernet) or DC19V power supply, available at option. The speaker includes a Class-D amplifier which provides effective use of power.

This system will solve the issue of having to provide a separate amplifier or I/O interface for speaker installations.

The audio network system is also compatible with AES67 which makes this speaker system to be flexible with other audio network systems.

The network system is also Dante Domain Manager Ready.

The system comes with 6.25” coaxial 60W loudspeaker driver, MNS-6AXXCS-1P that has excellent dispersion, wide bandwidth and smooth frequency response which makes this the top choice for today’s overhead commercial applications.

This assembly can be used in wide range of projects for paging and background music applications.

**Features:**

- Network Enabled Loudspeaker by Dante™
- Power Supply via POE+ or 19V Power Supply [option]
- RJ45 Connection for Audio from POE+ Ethernet
- Frameless, Flat Design, Magnetic Ultra-thin Grilles
- AES67 Compatible
- Dante Domain Manager Ready
- CE Passed

MONISMS DANTE/AES67 Ceiling Speaker Advantage

- No need to have separate dante enabled AMP or I/O interface.
- Cost effective simple one system solution.
- High quality digital audio.
- Simple and easy installation, maintenance and expansion.
- Easy configuration / adjustable the sound area through software.
- Compatible with DANTE/AES67 protocols.
